

The Talbott Springs Staff and Title I are excited to welcome you for American Education Week: Math At Home.

Please join us for your child's math class and parent information session! In class, you will learn math games and activities to play with your child at home. These activities will help review skills and concepts previously learned this year. The parent session will consist of a debrief of the classroom time. The materials to play at home will be distributed at this session.

These sessions coincide with your child's lunch. If you would like to come before or stay after to eat lunch with your child, we invite you to do so!
